Dear Jack Catanese

You assume the truthfulness, the reality of the Bishop story. I do not. It assumes I should've quit. I do not. I'm in the hospital, where I've been for 3 weeks this trip, and know how bad my writing is. So I take time to add now that this is all a distraction, a diversion. Despite the resemblance you see if the Prouty picture he is not & could not have been "Bishop."

I know of no claimed proof Veciana worked for the CIA.

The whole story violates the most basic trade craft of spooking.

There is a considerable volume of established documentation fact that is ignored by those who have theories & support. For any theory to have any possibility it must conform with this established fact that the theorists do ignore.

Thanks and best wishes,

Harold Weisberg
